I don't think those outside of R8 can access this drive. Is there any way to put it on an ftp site?

Rob – The QAPPs and SARs for 2012, 2015 and 2014 are on the I-drive in the following folder:

I-drive/30 day Share/PSchmittdiel-Upper Animas/SAR-QAPPs Docs

Sorry it took so long but Steve Auer at Techlaw thought he had placed everything in the folder yesterday AM and then he went into the lab for the rest of the day. Let me know if you have any questions or need more information.

Thanks Paula, would you be willing to prompt Steve again as we're on a time crunch? Thanks,
Rob

Hi Paula – Did Steve send over the Analytical Results yet today? Could you let me know where to find them if he did?

Thanks,

Rob

Subject: SAR reports for Upper Animas

Importance: High

Steve or Sherry – Can you send me (electronic) the final QAPPs, Sampling & Analytical Results reports for the last 4 years – 2012, 2013, 2014, & 2015? We would need all of the appendices including field notes, validation, maps, etc. that support the data collection in that report. If you have an FTP site or something similar that would make it easy to transmit the reports to a number of EPA staff both in Region 8 as well as HQ, please let me know.

If you have questions about this request, let me know.

Thank you.
